Dear Colleagues,

On behalf of the ICICTE Steering Committee, I am pleased to announce that ICICTE 2014 will run from 3–5 July 2014. This year we move to a new location in our 15 year history – the beautiful island of Kos, the home of Hippocrates.

Once again ICICTE will look at the effects that technological innovation is having on education in all its formats. The conference will examine the integration of technology into all facets of education, including school (K- 12), university and professional education, on-site and distance learning.

Our keynote speaker is Professor Santosh Panda, Senior Fulbright Scholar and a Professor of Distance Education at Indira Gandhi National Open University (IGNOU), India, an eminent researcher in the field of online and distance education.

As regular visitors to the conference will tell you, we pride ourselves on offering not only a high level of academic excellence, but also an intimate atmosphere that creates camaraderie, stimulates academic interaction and fosters development of innovative projects and networks across the world.

ICICTE is small enough to allow extensive interaction between delegates, yet with a high level of representation from organisations and individuals from a wide range of disciplines and countries. Those attending ICICTE 2014 will leave with an excellent overview of current thinking and practices in applications of technology to education.

The website for ICICTE 2014 is now live and can be viewed at: <http://www.icicte.org>.

The call for papers, posters and workshops is open, and can be viewed at <http://www.icicte.org/ICICTE14Papers.htm>. If you would like to present a paper in a plenary session, please submit your abstract online by February 21, 2014. Workshop and poster proposals should be received by March 28. All submissions and papers are blind peer-reviewed by the Scientific Committee.

For any further information please feel free to contact us any time. We look forward to seeing you on Kos in 2014.

Cordially on behalf of the ICICTE 2014 Steering Committee

Dr Christopher Barlow MSc BMus MIET MIOA
Chair, ICICTE Steering Committee

Critical Dates

February 21

- Deadline for paper proposals

February 28

- Notification from Scientific Committee about whether proposal has been accepted
