Abstract

This study aims to reveal the functions and focuses of the websites of women's rights NGOs in Turkiye, especially in providing education and educational content. Therefore, it is discussed how much educational information and resources these NGOs offer through their websites. For this purpose, a comparative website analysis has been conducted on the websites of the Sexual Violence Prevention Association (Cinsel Şiddetle Mücadele Derneği), the Flying Broom Women's Communication and Research Association (Uçan Süpürge Kadın İletişim ve Araştırma Derneği), the Purple Roof Women's Shelter Foundation (Mor Çatı Kadın Sığınağı Vakfı), the Women's Platform for Equality (Eşitlik için Kadın Platformu), and the We Will Stop Femicides Platform (Kadın Cinayetlerini Durduracağız Platformu). As a result of this comparative analysis, it is evident that women's rights NGOs address educational content and “educate others” together with data and reporting. This study contributes to understanding the online activities of NGOs in Turkiye, a country that withdrew its signature from the Istanbul Convention despite all objections from women's organizations.
